MEGA ITALIA MEDIA: AT THE SERVICE OF CORPORATE TRAINING

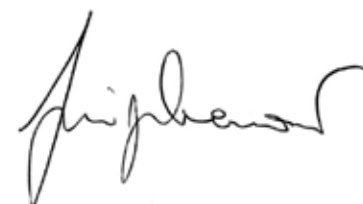

Since 1988, Mega Italia Media has been the reference for companies, organizations, and consultants to successfully and effectively carry out corporate training.

Mega Italia Media offers a complete and integrated system of LCMS platform for online training in SaaS mode (software as a service), eLearning courses for mandatory training, soft skills, and a range of products and services for professionals and safety consultants.

Mega Italia Media's offer includes a wide catalog of online courses for corporate training, the development of personalized eLearning platforms, and a range of products and services for safety professionals and consultants.

Today, we train more than 100,000 workers per year, and over 90% of users are satisfied with the quality of the courses.

Mega Italia Media: your partner for corporate training.

A handwritten signature in black ink, appearing to read 'Luigi Meroni', written in a cursive style.

CEO Mega Italia Media S.p.A.

MEGA ITALIA MEDIA: THE VISION

“To establish ourselves in Italy and internationally as one of the key **players** in the specialized **eLearning** world for mandatory training.”

MEGA ITALIA MEDIA: THE MISSION

Our mission is to support companies, organizations, and professionals in conducting digital employee training in a simple, efficient, and cost-effective manner.

Adopting an ethical and responsible policy regarding health and safety in the workplace is a fundamental requirement for companies. High-quality training can significantly contribute to reducing workplace injury rates, generating positive economic and social impacts for companies, workers, and society as a whole.

Furthermore, the commitment to health and safety at work is closely related to the ESG pillars (Environmental, Social, and Governance), defining corporate sustainability. Protecting the health and safety of workers is an essential element to promote the social responsibility of companies and achieve medium-to-long-term sustainability goals.

The wide range and the quality of the course offerings, the high level of user satisfaction, combined with the simplicity and completeness of the DynDevice LMS platform, are the pillars of Mega Italia Media.

DYNDEVICE LMS ELEARNING PLATFORM

DynDevice LMS is the **eLearning platform** that allows companies to create, manage, and deliver all corporate training: online, in the classroom, and via video conferencing. The system consists of **4 cloud solutions** that can be activated according to your needs:

-  Management of corporate training and delivery of eLearning, classroom, or blended courses
-  Production of customized SCORM™ courses
-  Evaluation and management of human resources
-  Customization of the platform

Discover all the technical information and features of the eLearning platform at www.dyndevice.com

Learning Management System

SCUOLA DELLA SICUREZZA

Scuola della Sicurezza is the customizable eLearning platform that allows consultants, trainers, and professional studios **to sell and provide their clients with a vast catalog of high-quality eLearning courses** without worrying about design, technological, and updating aspects.

The service includes a catalog of over 250 immediately activatable courses and, thanks to an extremely convenient service fee, offers an interesting margin on the courses sold.

Find more information about Scuola della Sicurezza at www.scuoladellasicurezza.it, or by scanning the QR code.

Scuola della Sicurezza

La tua piattaforma eLearning

CORSI SICUREZZA ITALIA

The CorsiSicurezzaItalia portal offers a **complete range of** occupational safety training **courses** delivered **in the classroom, through synchronous video conferencing, and in eLearning.**

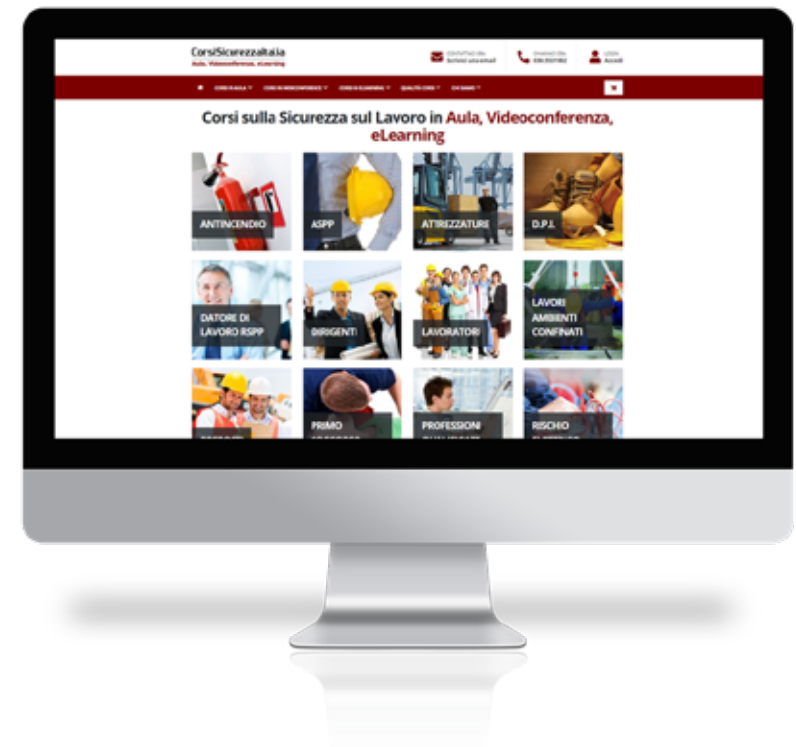

Classroom and video conferencing courses are held in various locations in Italy by qualified training centers, while eLearning courses are those from the Mega Italia Media catalog, created with the highest standards of quality and regulatory compliance.

The service is aimed at companies, employers, internal or external RSPP who need to provide mandatory training courses to their employees.

Discover all available courses at www.corsisicurezzaitalia.it, or by scanning the QR code.

SICURFLIX

SicurFlix is the **streaming and download portal for educational resources** useful to trainers for workplace safety, making in-person training more effective.

The SicurFLix catalog includes videos and **educational resources necessary for course creation**: learning assessment tests, PDF manuals, PowerPoint slides, student handouts in PDF, course program, course attendance register, satisfaction questionnaire.

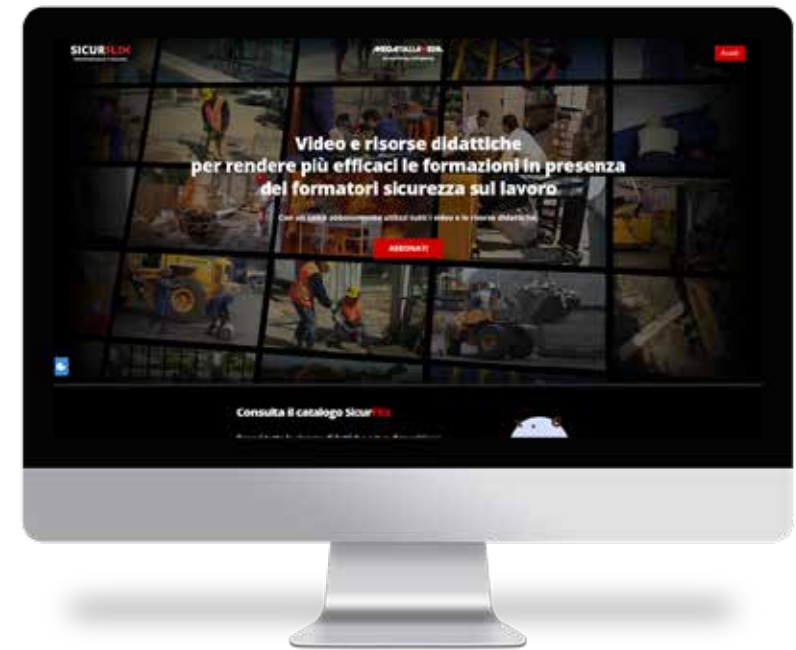

The SicurFlix service is aimed at consultants, trainers, and workplace safety training centers.

Discover all the features of the SicurFlix service and the benefits for trainers at www.sicurflix.it, or by scanning the QR code.

SICURFLIX

Videostreaming per la sicurezza

MEGAMEETLIVE

MegaMeetLive is the video conferencing platform with specific features for corporate training, particularly for the **legally valid delivery of mandatory training courses**.

MegaMeetLive complies with the requirements for delivering eLearning training on health and safety in the workplace, as defined by the **State-Regions Agreements of 2011 and 2016**.

MegaMeetLive is useful for companies and training centers to deliver any type of training via video conferencing with verification and tracking of trainees' activities, all the reporting required by control entities, and the recording of training sessions.

Discover how to conduct mandatory training via web-conference with the MegaMeetLive service at www.megameet.live, or by scanning the QR code.

CUSTOM ELEARNING COURSES

Want a customized eLearning course?

We design and develop eLearning courses with completely personalized content tailored to your company's training needs, with exclusive materials, topics, and images.

SPECIALIZED INFORMATION: PUNTOSICURO

PuntoSicuro is the **information service of news and insights** on workplace safety, environment, and security, a leader in Italy in terms of subscribers and visitors, information quality, and the quantity of published news.

It is the most authoritative information source for those involved in safety, also highlighted by the INAIL multimedia documentation service as a source of information of particular interest.

Punto Sicuro also offers Prime Database: services and regulations on workplace safety; a fundamental tool that allows all professionals to carry out continuous information research and update their knowledge and professional skills.

The free newsletter reaches **over 50.000 safety professionals every day**.

The highly targeted dissemination of the publication makes Punto Sicuro an attractive advertising tool for industry operators.

SPECIALIZED INFORMATION: ELEARNING NEWS

eLearningNews is the **informative website on laws, best practices, ideas, systems**, and technical solutions for eLearning training.

The weekly and free newsletter is aimed at entrepreneurs, managers, teachers, and researchers involved in the study, management, development, and implementation of eLearning training.

eLearningNews is the **reference point for information** from the world of eLearning.
